

## Junction box in SMC

Molded in SMC (fiberglass) - RAL 7040 gray color. Fiberglass enclosures for metering and reduction units.

### Functional Characteristics

These enclosures are used to house utility meters and regulators for gas distribution. They feature a hinged door that is easily removable, opens 180°, and is secured with a Yale-type key lock. The enclosures can be installed on a wall, recessed, or on the ground.

### Technical Characteristics

- Material: SMC (fiberglass) - RAL 7001 gray color
- Reaction to Fire: According to UNI 8827 Cl. RF1 standard.
- Tracking Resistance: PTI 500 according to IEC 60112 standards.
- Ingress Protection (IP Rating): IP 43 according to CEI EN 60529 standard.
- Impact Resistance: 20J according to CEI EN 60439-5 standard.
